

# ESET **MOBILE SECURITY**

BUSINESS EDITION

[www.eset.com](http://www.eset.com)

**System Requirements :**

Windows Mobile 5.0; 6.0; 6.1; 6.5;  
 Symbian S60 3rd Edition, Feature Pack 1 or 2; 5th Edition;  
 Symbian^3 (Nokia only)

## Anti-Theft Features

### WHAT IT DOES

<b>Remote Wipe</b>	Safely deletes all contacts, messages and data on removable memory cards with a remote SMS command. Advanced cleaning procedures ensure that it is not possible to restore wiped data.
<b>SIM Matching</b>	Lets you stay in control of your phone remotely, even when an unauthorized SIM card was inserted into your device. Trusted Friend will receive a wealth of information about the inserted SIM, including the phone number, IMSI and IMEI codes.
<b>Trusted Friend</b>	Trusted Friend is your help in the event of mobile phone's loss or theft. Initially, you set up one or more Trusted Friend phone numbers.
<b>SMS/MMS Antispam</b>	Filters out unwanted SMS/MMS messages. Allows you to define your own trustworthy contacts via blacklist/whitelist or simply block all unknown numbers.

## Security Features

### WHAT IT DOES

<b>Real-time Protection</b>	Protects all applications, files and memory cards with the ESET NOD32 proactive technology optimized for mobile platforms.
<b>Security Audit</b>	An on-demand security audit checks the status of all vital phone functions, including battery level, Bluetooth status, device visibility, disk space and running processes.
<b>On-access Scanning</b>	Advanced scanning protects your device from threats attempting to access the system via Bluetooth, Wi-Fi or Infrared.
<b>On-demand Scanning</b>	On-demand Scanning provides reliable scanning and cleaning of integrated memory and exchangeable media. Scanning of specific folders is also supported.
<b>Firewall</b>	Monitors all incoming and outgoing communication based on custom rules. Gives the option to automatically block data while in roaming to keep your phone bill under control.
<b>Remote Administration</b>	Enables you to check the security status of your smartphone fleet, run on-demand scans and get overview and helpful information to keep you up-to-date on your smartphones' security.
